Dear Jack,

Your new contract has been carefully reviewed. We suggest that paragraph (2) (e) read as follows:

"A subsistence allowance abroad will be disbursed directly by the Government when Government quarters and mess facilities are not reasonably available."

This addition is consistent with the general provisions of our memorandum, "Assumptions and Understandings...." and more specifically the statement contained in paragraph 4, page 3.

We desire this in order that all supplier personnel will be treated in the same manner.

Very truly yours,

Dan
